Ex.t collections approach different styles with a contemporary twist along with a unique and original aesthetic. Modularity, versatility and functionality are the key features of Ex.t products, proposing the bathroom as a dynamic space, meeting the needs of contemporary living.

Ex.t designs are made by artisan laboratories and manufactures dedicated to carry on the tradition of Made in Italy through an ongoing innovation process.

Ex.t

OUR PRODUCTION

Our production is 100% local, all Ex.t products are made in Tuscany. Each product is the result of an accurate multi-level process delivered with great commitment and passion by all our craftsmen. Quality materials, attention to detail, traditional processes combined with technological innovation along with refinement and style: these are the features Made in Italy that make Ex.t products.

Made in Italy

“We’ve got a history of championing local artisans. Ex.t products are skillfully crafted in Tuscan laboratories where the latest generation of masters carry on the tradition of Made in Italy with an eye on innovative techniques and the most refined materials”

Collection

Product Overview p. 128, 153

Origami

design Bernhardt & Vella

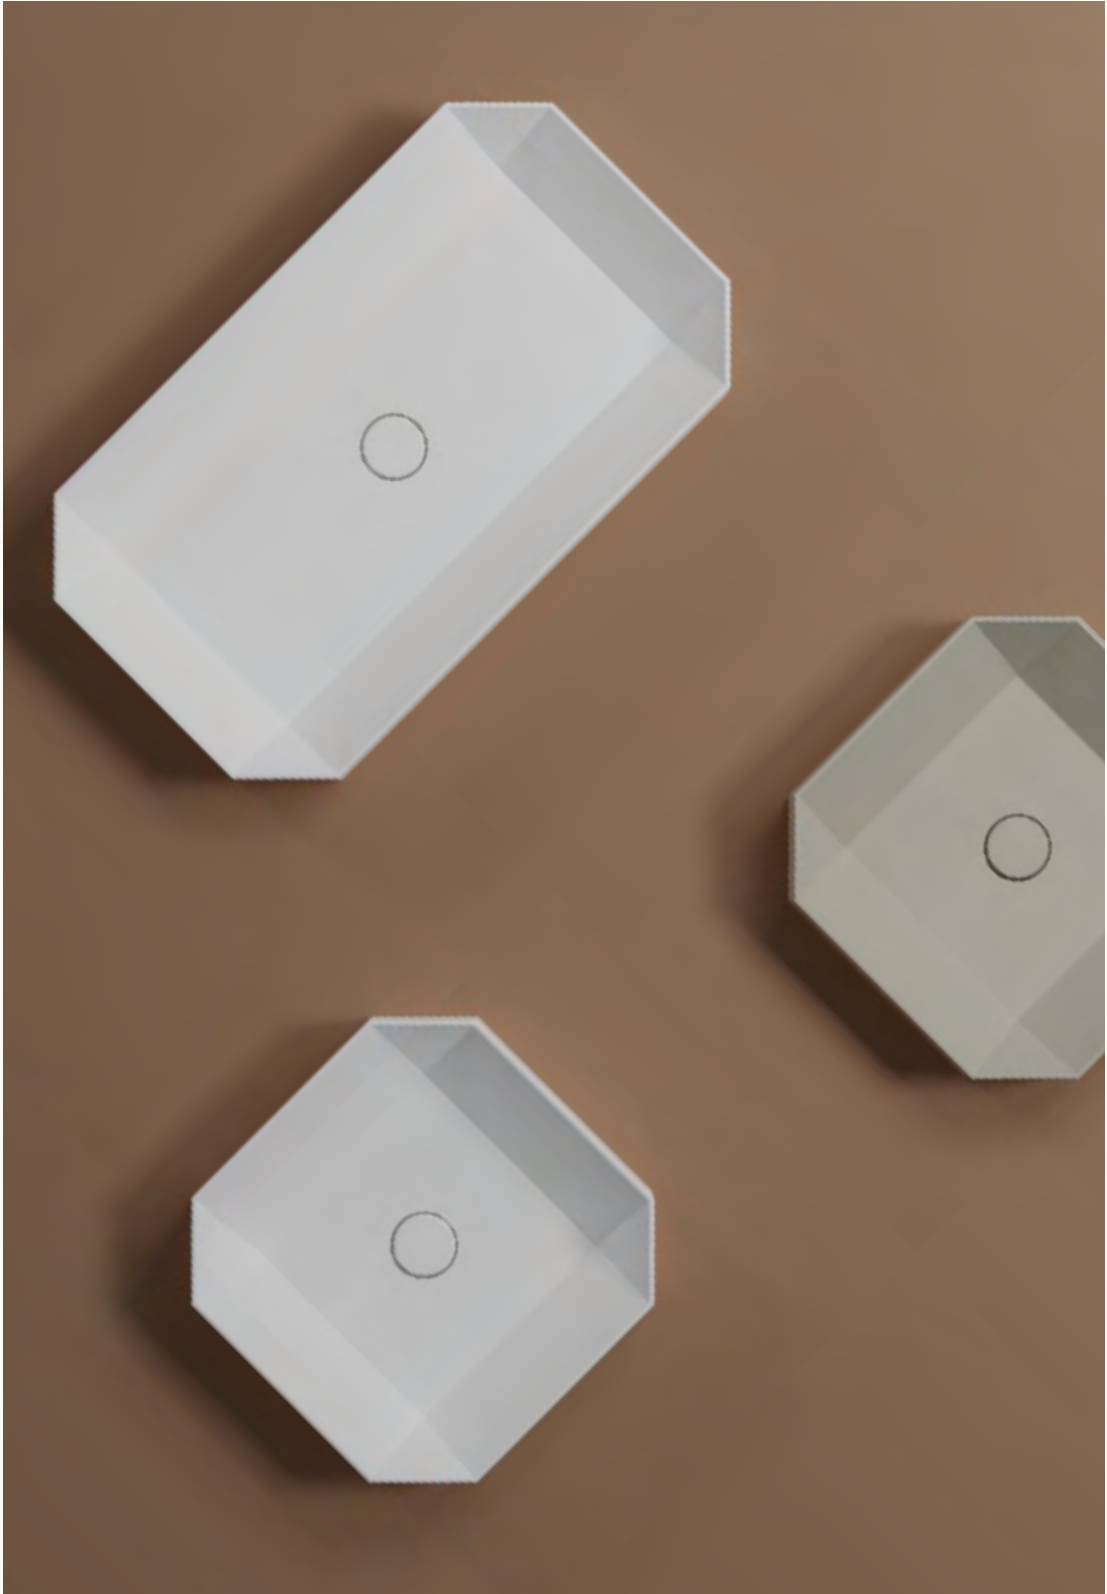

Origami's leading actor is the washbasin, featuring clean, marked lines drawing inspiration from the rigour of Japanese aesthetics.

The size of the cabinet, single or double, combines rigid forms with glossy finishes. Another element that emphasizes the sculptural nature of the collection is the support column which can be positioned against the wall and in the middle of the room.

The collection is completed by backlit mirrors and brushed metal accessories that contrast with the glossy lacquers of the furniture items.

Product

Product Overview p. 134

Beam

design Sans Nom & Salaris Studios

The Beam bathtub features a base with strict lines that draws its inspiration from the metal architectural profiles, and contrasts with the soft lines of the body in LivingTec. The various combinations of materials, colours and finishes provide an ever-innovative visual appeal that can be adapted to any bathroom, both in the home and in contract settings. In addition to its general visual appeal, the way the base is designed allows the bathtub's technical elements to be hidden from view. This makes the bathtub suitable for use in the middle of the room or along a wall.

Collection

Product Overview pp. 131, 135, 149

Swing

design Fabio Fantolino

A collection of bathtub, bathroom furniture, mirrors, shelves and accessories aiming to break the mould. Dedicated to those who always seek innovation, beauty and design for the home, Swing leads us to a reinterpretation of lines and shapes from the early 1900s styled with a contemporary and practical twist. Also the colours have been conceived to break the rules; allowing to match the palette with walnut hues and play with the details as well as customising products in countless combinations.

Collection

Product Overview p. 126, 134, 137, 148, 152, 165

Nouveau

design Bernhardt & Vella

A collection of washbasins, cabinets, bathtubs, mirrors, showers and accessories featuring geometric and sinuous lines, born from a balance of basic and classic shapes such as circles, semi-circles and parallelepipeds, creating a game of volumes in a succession of full and empty spaces.

Freely inspired by early twentieth century Art Déco, the collection takes refined suggestions from that era and reworks them with the taste and sensitivity of a contemporary perspective.

Collection

Product Overview p. 121, 146, 164

Frieze

design Marcante-Testa

Inspired by “entablatures” series by Roy Lichtenstein, the project is articulated through different levels of signs, materials and colours where the washbasin stars as central element of the bathroom. The architectural approach of the designers involves the entire spatial dimension of the bathroom: the position of the sink is defined by a central band, available in different materials and colours, creating space to install mirrors, shelves, furniture and towel hooks.

Stand

design Norm Architects

Iconic collection inspired by the Modernist style of 1920s and 1930s interiors, Stand design features the original spirit of Nordic design. Geometric purity, simple naturalness and sober authenticity coexist in a perfect balance between functionality and aesthetic, giving life to objects that are sculptural and elegant yet light and airy at the same time.

Frame

design Norm Architects

Frame is a modular system of bathroom consoles and furniture. The collection features a straight and minimalist design, turning in a delicate piece with a Nordic allure. A flexible system consisting of a number of graphic frames, customisable depending on your needs and with a functional purpose. The main structure is designed to accommodate the basin as well as a counter top in various materials. Thanks to its versatility, Frame is a perfect solution for any living space.

Collection

Product Overview p. 129, 134, 149

Plateau

design Sebastian Herkner

Plateau Collection is inspired by the idea of playing and experimenting with shapes and colours to create a set of products that are stylish as well as useful and versatile. That's how a sidetracking plateau came up, becoming the stylistic leitmotif for the entire collection. Functional and elegant, this detail is a feature in every piece from the bathtub and washbasin to the mirrors, just as a shadow in movement sets down on different surfaces whilst keeping its shape.

Ribbon

design Sebastian Herkner

Featuring a bathtub, a console and a washbasins Ribbon collection is a contemporary product with a strong personality.

A square-shaped wall-mounted washbasin of small dimensions, is designed for cosy spaces. Like the oval sink and the bathtub, Ribbon Square features functional and aesthetic elements that give brightness and sophistication to the product.

Collection

Product Overview p. 122

Noto

design Ex.t

Noto is a new versatile and dynamic system featuring storage units for the bathroom. Available in two sizes, it can be paired with integrated or countertop washbasins. Multiple solutions for a single component featuring clean and essential lines, suitable for different living spaces.

Collection

Arco

design Mut

Product Overview p. 118

Arco is a product characterized by functional versatility and material blend. It is available in matt black and brushed brass, with an integrated mirror and a shelving system hiding on the back which increases the functionality of the object.

A series of smaller mirrors with hidden shelves complete the collection: Arco Mirror (available horizontal and vertical) and Arco S Mirror. Conceived by the designers as accessories, these mirrors offer many options: they can be set together thanks to a game of different depths or used as single objects in many living spaces.

Arco S console - p. 118
Arco Round mirror - p. 146
Peacock lamp - p. 161
Rest Round 50 pouf - p. 157
Nouveau Hook accessories - p. 152

Collection

Product Overview p. 118

Eileen

design Ex.t

Console with integrated basin and towel rail, Eileen's practical but stylish design makes it suitable for various kinds of spaces, and the perfect choice for residential, commercial and hospitality projects of any range. Available in two sizes, it now features structures in four colours with the addition of the blue and the beige red to the classic black and white.

Peacock lamp - p. 161 (left)
Stand Oval mirror - p. 149 (right)

Collection

Product Overview p. 157

Rest

design Norm Architects

Rest is the collection of seating designed by Norm Architects which include poufs, a lounge chair and a daybed.

A small pouf available in two sizes with seatings in linen and wool in addition to the regular selection of upholstery of the line.

The design of Rest Lounge Chair is inspired by the way Japanese people use to sit on the floor and lean on the surrounding furniture to rest: thus, the low and wide backrest can be a regular support for the back when in a sitting position or a comfortable support for a short rest if standing.

Hang small - p. 157

Peacock
Fuse
Raso

Ext

LAMPS

Peacock

Peacock is a minimal lamp that reveals its hidden beauty as you pass by. A domed borosilicate glass diffuser is nearly positioned within the outer glass cone so that when illuminated a radiating reflection fans out across the surface, reminiscent of the way a peacock's plumage.

Fuse

Fuse lamps combine Italian craftsmanship with the essence of Nordic aesthetics, in a perfect blend of materials and style. The sense of touch and the visual impact play a fundamental role in Fuse lamps design: the soft ceramic creates a stylistic continuum with the small wooden hat that lights up when the lamp is on, giving warmth to the whole room.

Note Design Studio

Raso

The Raso line features two unique design lamps made of glass. Inspired by the softness of a silky texture, they give a suffused and delicate illumination thanks to the contrasting clear and frosted glass which defines the design. Available in pink, grey, white and transparent to meet many tastes, Raso lamps are exclusive pieces to give a touch of style to various living spaces from the bathroom and the bedroom to the shop and the restaurant alike.
